

Wellness SENIOR MIX®

Seminole Wellness SENIOR MIX® is a low-starch, complete feed with herbs, scientifically formulated for aged horses & ponies. Wellness SENIOR MIX is formulated with 10% fat, highly digestible fibers, natural grains and beneficial herbs to provide superior nutrition in an easy-to-chew form. This low-starch formula, aids in reducing the risk of metabolic disorders and digestive upset that can lead to colic and laminitis.

FEATURES	BENEFITS
Low-Starch, High-Fat, Fixed-Formula	Provides a consistent energy level from "cool" calories & superior nutrition to support the increased demands of the older horse
Beet Pulp, Soybean Hulls & Alfalfa Meal	Highly digestible fibers reduce the risk of health problems associated with diets high in starch
Flax Seed, Ultra Bloom® Stabilized Rice Bran & Soybean Oil	Supplies essential omega-3 & omega-6 fatty acids for overall health and coat condition
Balm, Fenugreek, Garlic, Marjoram, Parsley, Sage, Spearmint, Red Clover, Rosemary	Beneficial herbs are included for respiratory & digestive properties and flavor
Biotin, Methionine & Zinc	Supports hoof growth & condition
Antioxidants	Vitamin E & Selenium yeast for healthy immune system function
Mannan oligosaccharides (MOS)	Included to maintain intestinal health
Mycotoxin Adsorbent	Binds mycotoxins that can be present in hays & forages
Yucca Schidigera	Supports glandular function & has anti-inflammatory properties

**FEEDING DIRECTIONS**

Wellness SENIOR MIX is a low-starch, premium quality complete feed, scientifically designed for aged horses. Wellness SENIOR MIX can be fed with forage or as the sole ration if your aged horse is unable to readily consume hay, pasture or other long-stemmed forage. Start the feeding program using the Daily Feeding Guide for the type of roughage fed and class of horse. After observing and/or weighing the horse for a period of time, increase or decrease the daily feeding rate to obtain the desired body condition or body weight.

If your senior horse has lost teeth or has dental problems and can no longer chew or swallow hay, this feed can be fed at a higher level, usually up to 2% of body weight per day. This feed can be soaked in water and fed as a mash. It is recommended that if your horse cannot consume hay or grass that an alternative form of long-stem fiber be fed. Hay cubes, chopped hays or chaffs can be soaked in water and safely fed to these horses. When the amount of feed exceeds 1.5% of the horse's body weight, it should be divided and fed in 3 or more feedings per day.

DAILY FEEDING GUIDE

Recommended Daily Feeding Rate in pounds of feed per 100 pounds of body weight or as a percentage of body weight (BW).

Class of Horse		Total Feed Concentrate In Diet			Total Hay or Forage In Diet (% of BW)
		When fed with Grass Hay,* Forage Product or Pasture	When fed with Mixed Hay,* Forage Product or Pasture	When fed with Legume Hay,* Forage Product or Pasture	
Maintenance Horses	Mature Maintenance Horses	.25 – 1	.25 – 1	.25 – 1	1.5 – 2.0
Performance Horses	Light Work	.25 – 1.25	.25 – 1.25	.25 – 1.25	1.0 - 2.0
	Moderate Work	.5 – 1.25	.5 – 1.25	.5 – 1.25	1.0 - 2.0
	Intense Work	.5 – 1.25	.5 – 1.25	.5 – 1.25	1.0 – 2.0
Breeding Horses	Pregnant Mare (1-8 months)	.5 – 1	.5 – 1	.25 - .75	1.5 - 2.0
	Pregnant Mare (9-11 months)	.5 – 1	.5 – 1	.5 – .75	1.0 – 2.0
	Breeding Stallions or Mares	.5 – 1	.5 – 1	.5 – 1	1.5 – 2.0
Lactating Mares	Early Lactating Mares (1-3 months)	.75 – 1.5	.75 – 1.5	.75 – 1.5	1.0 - 2.0
	Late Lactating Mares (4-6 months)	.75 – 1	.75 – 1	.75 – 1	1.0 – 2.0
Growing Horses	Foal/Weanlings	1 – 1.5	1 – 1.5	1 – 1.5	0.5 – 1.0
	Yearlings	.75 – 1.25	.75 – 1.25	.75 – 1.25	1.0 – 1.5
	2-3 year olds	.75 – 1	.75 – 1	.75 – 1	1.0 – 1.5

* Protein content of hay is assumed to be: Grass = 8%, Mixed 50/50 = 12%, Legume (Alfalfa or Peanut) = 16%.

** Forage Product includes chopped hays, chaffs and cubed hays.

Do not feed Wellness SENIOR MIX on a free choice basis. Feed at regular times, with two or more equal feedings per day. Make all feed changes gradually, over a 7 – 10 day period. Increases in feeding rate should not exceed 1 pound per day for an individual horse. Delay feeding a horse that has just been exercised or is exhibiting pain, fever or diarrhea. Wellness SAFE SENIOR weighs approximately 1.6 pounds per dry US quart. Feed hay and/or equivalent pasture at the rate of 1 to 2 pounds per 100 pounds of body weight daily. Provide a free choice horse mineral such as Seminole Grass Balancer 16:8 Mineral or Alfa Balancer 12:12 Mineral on continuous basis. Provide clean, fresh water at all times.

Seminole Brand Guarantee

If you're not satisfied, we're not satisfied. Should the quality of this product not meet your expectations, return it within 30 days with proof of purchase to your Seminole Feed dealer for a complete refund or replacement.
